Comply

Defend

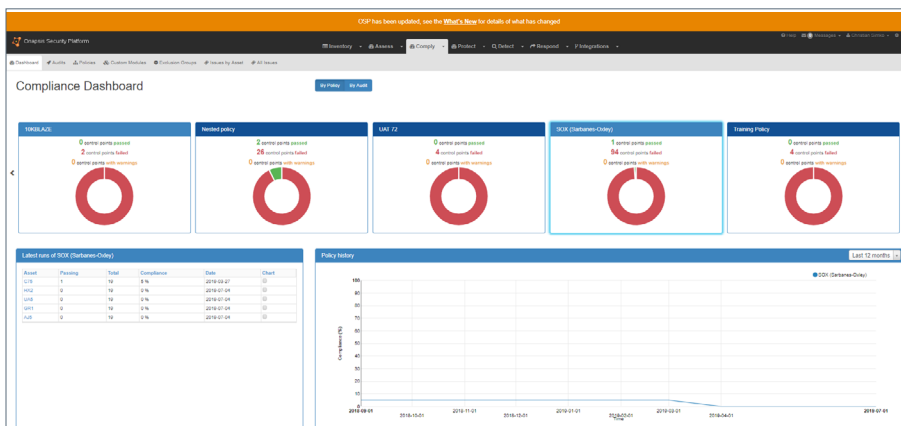

AUTOMATED GOVERNANCE

Ensure IT controls are continually tested and validated to meet compliance requirements and enforce policies to reduce audit burdens and maintain continuous compliance.

Enforcing adherence, automating verification of IT controls and understanding compliance impact for:

- SOX, GDPR, PCI-DSS, NERC CIP, NIST, SAP Security Baselines, etc.
- System Vulnerabilities
- Configuration Issues
- Authorization Issues
- SAP Interface Vulnerabilities
- Custom Policies
- Custom SAP Code Vulnerabilities

COMPLY by Onapsis delivers automated governance so cross-functional teams get powerful compliance policy enforcement and audit reporting capabilities to ensure an organization's core ERP business applications and sensitive data are safe and compliant. To streamline the compliance effort, you need a solution that helps you define compliance policies and security baselines, assess for change, identify misconfigurations and vulnerabilities, find and fix code vulnerabilities, prevent bad transports and automate the audit process to maintain continuous compliance.

DEFINE

Record, log and audit activity for regulatory compliance reporting such as GDPR and SOX mandates and simplify internal and external audit investigation.

REPORT

Get started with 14 out-of-the-box compliance policies and customize policies to meet your specific IT controls and compliance requirements.

TEST

Schedule and automate the continuous assessment of your ERP systems against policies to proactively measure risk, understand the compliance impact and stay ahead of the audit cycle.

SECURE THE CORE

Secure the core of your business by providing code, application and ERP system-level visibility and protection against internal and external attacks.

CLOUD WITH CONFIDENCE

Accelerate cloud migration and digital transformation by ensuring your ERP applications are secure and ready for the cloud.

CHANGE ASSURANCE

Reduce the operational risk associated with ERP maintenance and modernization, ensuring the reliability and performance of business-critical applications.

AUTOMATE THE AUDIT

Establish an automated and repeatable compliance reporting and audit process providing efficiencies and freeing up valuable resources.

ABOUT ONAPSIS

Onapsis protects the applications that run the global economy by delivering a next-generation business application platform providing actionable insight, change assurance, automated governance and continuous monitoring. Onapsis empowers organizations to modernize business-critical SAP and Oracle E-Business Suite ERP systems, while keeping them protected and compliant. For more information, visit www.onapsis.com.

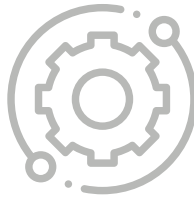

WHY ONAPSIS

IT: Delivering highly optimized and consistently available business-critical applications is the top priority, but challenges arise when audit demands consume valuable resources. Comply from Onapsis automates the testing and validation of IT controls, eliminating this repetitive burden for ERP admin teams to focus on strategic business initiatives.

INFOSEC: Protecting the organization's ERP systems is essential to prevent costly breaches and non-compliance violations. Comply from Onapsis enables you to define security policies and continuously assess your ERP systems to proactively measure risk and keep the organization secure and compliant.

GRC: Maintaining compliance and improving the audit process is a constant challenge. Comply from Onapsis establishes an automated and repeatable audit process aligning IT, security and audit teams to gain efficiencies, produce accurate reports, free up cross-functional resources and prove compliance.
